Description

James P. Senatore Architect / Contractor and Mr. Richard Campanale, P.E. worked with Pastor Wilkes to provide architectural and engineering design, permitting and construction services for the 4,000 sf addition to be used as a DayCare Center. Senatore Architect / Contractor performed this as design-build total project completion. The Site was extremely small, but with innovative design standards for water retention and building layout the tight design worked to satisfy the Church members.
